Index 1966

of the International Journal of Health Education

This index is divided into a subject index and an index of authors. The subject index carries one or more entries for each item published.

Appointments

SOPHE citations for 1965 48

Behaviour—beliefs, values, practices

Analysis of a communications breakdown in the Surinam malaria eradication programme (T. Sexton) 122-129
An evaluation of the effect of mass media in a health education programme (A. Antonovsky & H. Shuval) 58-68
An experimental approach to health education in the secondary school: the induction programme for teachers (B. McCloskey) . 113-118
Cervical cytology: a challenge to health education (R. L. Davison) 178-182
International enquiry into desirable individual health practices (H. Navid & D. Pridan) . . 21-29
Psycho-social forces and public health problems (T. F. Plaut) 30-38
Social factors influencing health education among the Chimbu (J. Whiteman) 8-13
Towards a philosophy of health education: some preliminary ideas and problems (F. Horine) 106-112
Working through the community leaders: an experience in Tonga (J. Fanamanu & T. Vaipulu) 130-137

Communication

Analysis of a communications breakdown in the Surinam malaria eradication programme (T. Sexton) 122-129
An evaluation of the effect of health education methods on prenatal clinic attendance (G. J. Specter). 183-187
An evaluation of the effect of mass media in a health education programme (A. Antonovsky & H. Shuval). 58-68
Frame of reference: the health educator's tool (B. Mathews & A. Kartikesan) . . . 82-86
Health education aspects of a pilot antimeasles campaign (F. Vargas Tentori) . . 144-151
Picture-taking: one method of discovering communication channels (M. L. Skinner) . 78-81
Puppetry: a teaching technique which appeals to children (J. Holler) 94-99

Community health and development

Baião: a community comes to life (L. Ameal & M. d'Avillez) 54-57
Health education aspects of community development in Nigeria (R. N. Onyemelukwe) . 14-20
Working through the community leaders: an experience in Tonga (J. Fanamanu & T. Vaipulu) 130-137

Cultural factors

Analysis of a communications breakdown in the Surinam malaria eradication programme (T. Sexton) 122-129
An evaluation of the effect of mass media in a health education programme (A. Antonovsky & H. Shuval) 58-68
Frame of reference: the health educator's tool (B. Mathews & A. Kartikesan) 82-86
Health education aspects of a pilot antimeasles campaign (F. Vargas Tentori) . . 144-151
Health education aspects of community development in Nigeria (R. N. Onyemelukwe) . 14-20
Picture-taking: one method of discovering communication channels (M. L. Skinner) . 78-81
Psycho-social forces and public health problems (T. F. Plaut). 30-38
Social factors influencing health education among the Chimbu (J. Whiteman) 8-13
Working through the community leaders: an experience in Tonga (J. Fanamanu & T. Vaipulu) 130-137

Definitions and concepts

An experimental approach to health education in the secondary school: the induction programme for teachers (B. McCloskey) . 113-118
Frame of reference: the health educator's tool (B. Mathews & A. Kartikesan) 82-86
Health education aspects of community development in Nigeria (R. N. Onyemelukwe) . 14-20
In Europe: health education expands its influence 119-121
International enquiry into desirable individual health practices (H. Navid & D. Pridan) . 21-29
Principles for developing dental health education programmes (C. J. Sundram) . . . 188-194
The specialist in health education: training for the future (G. W. Steuart) 165-169
The use of health education services in national health programmes (C. N. Derek Taylor) 2-7
Towards a philosophy of health education: some preliminary ideas and problems (F. Horine) 106-112

Dental health

Principles for developing dental health education programmes (C. J. Sundram) 188-194

Diseases

Cancer: Cervical cytology: a challenge to health education (R. L. Davison) 178-182
Education of public and doctors prerequisite to defeating cancer 29
Cholera: Challenge faced 99
Malaria: Analysis of a communications breakdown in the Surinam malaria eradication programme (T. Sexton). 122-129

Measles: Health education aspects of a pilot campaign (F. Vargas Tentori) 144-151
Smallpox: A ten-year eradiction plan. . . . 99
Tuberculosis: It may be just as well 93

Evaluated projects and results

Analysis of a communications breakdown in the Surinam malaria eradication programme (T. Sexton) 122-129
An evaluation of the effect of health education methods on prenatal clinic attendance (G. J. Specter). 183-187
An evaluation of the effect of mass media in a health education programme (A. Antonovsky & H. Shuval). 58-68
A training programme for external cardiopulmonary resuscitation: its health education implications (S. Rosenberg) 195-201
Baião: a community comes to life (L. Ameal & M. d'Avillez) 54-57
Health education aspects of a pilot antimeasles campaign (F. Vargas Tentori) . . 144-151
Programmed learning: testing its use in school health education (P. Grime). 138-143
Psycho-social forces and public health problems (T. F. Plaut) 30-38
Working through the community leaders: an experience in Tonga (J. Fanamanu & T. Vaipulu) 130-137

Group activities

An experimental approach to health education in the secondary school: the induction programme for teachers (B. McCloskey). . . 113-118
Frame of reference: the health educator's tool (B. Mathews & A. Kartikesan) 82-86
Training to teach health education (S. King-Hall). 70-77

International organizations

Unesco-WHO

Planning for health education in schools (C. E. Turner). 158-164

Unicef

Unicef receives the Nobel Peace Prize for 1965 7

WHO

Analysis of a communications breakdown in the Surinam malaria eradication programme (PAHO) (T. Sexton) 122-129
A ten-year plan for smallpox eradication . . 99
Cholera challenge faced 99
Education of public and doctors prerequisite to defeating cancer. 29
France host to pilot health education training programme for doctors. 47, 177
In Europe: health education expands its influence 119-121
Kuwait: WHO Regional seminar on school health education lays grounds for future development 68-69
Preparing tomorrow's health leaders 77
Protection of student health. 69
The use of health education services in national health programmes (C. N. Derek Taylor) . 2-7
Warnings on health situation 57

Learning

Analysis of a communications breakdown in the Surinam malaria eradication programme (T. Sexton) 122-129
An experimental approach to health education in the secondary school: the induction programme for teachers (B. McCloskey) . 113-118
A training programme for external cardiopulmonary resuscitation: its health education implications (S. Rosenberg) 195-201
Planning for health education in schools (C. E. Turner). 158-164
Programmed learning: testing its use in school health education (P. Grime). 138-143
Puppetry: a teaching technique which appeals to children (J. Holler) 94-99

Mass media

An evaluation of the effect of mass media in a health education programme (A. Antonovsky & H. Shuval). 58-68

Maternal and child health

An evaluation of the effect of health education methods on prenatal clinic attendance (G. J. Specter). 183-187

Mental health

An experimental approach to health education in the secondary school: the induction programme for teachers (B. McCloskey) . 113-118
Psycho-social forces and public health problems (T. F. Plaut). 30-38
Towards a philosophy of health education: some preliminary ideas and problems (F. Horine) 106-112

Methods and procedures

All you need is a tape recorder (A. Grant) . 202
Analysis of a communications breakdown in the Surinam malaria eradication programme (T. Sexton) 122-129
An evaluation of the effect of health education methods on prenatal clinic attendance (G. J. Specter) 183-187
A training programme for external cardiopulmonary resuscitation: its health education implications (S. Rosenberg) 195-201
Cervical cytology: a challenge to health education (R. L. Davison) 178-182
Frame of reference: the health educator's tool (B. Mathews & A. Kartikesan) 82-86
Health education aspects of a pilot antimeasles campaign (F. Vargas Tentori) . . 144-151
Health education aspects of community development in Nigeria (R. N. Onyemelukwe). 14-20
Picture-taking: one method of discovering communication channels (M. L. Skinner) . 78-81
Principles for developing dental health education programmes (C. J. Sundram) 188-194
Programmed learning: testing its use in school health education (P. Grime). 138-143
Puppetry: a teaching technique which appeals to children (J. Holler) 94-99
Training to teach health education (S. King-Hall). 70-77
Working through the community leaders: an experience in Tonga (J. Fanamanu & T. Vaipulu) 130-137

Motivation

An evaluation of the effect of health education methods on prenatal clinic attendance (G. J. Specter) 183-187

An evaluation of the effect of mass media in a health education programme (A. Antonovsky & H. Shuval) 58-68
Cervical cytology: a challenge to health education (R. L. Davison) 178-182
Health education aspects of a pilot anti-measles campaign (F. Vargas Tentori) . . 144-151
It may be just as well 93
Psycho-social forces and public health problems (T. F. Plaut). 30-38
Working through the community leaders: an experience in Tonga (J. Fanamanu & T. Vaipulu) 130-137

National programmes

Development of health education in Uganda: 1946-1966 (F. J. Bennett) 39-46
Health education aspects of community development in Nigeria (R. N. Onyemelukwe) . 14-20
The use of health education services in national health programmes (C. N. Derek Taylor) . 2-7

Nutrition

Health education aspects of community development in Nigeria (R. N. Onyemelukwe) . 14-20

Planning of programmes

Cervical cytology: a challenge to health education (R. L. Davison) 178-182
Health education aspects of a pilot anti-measles campaign (F. Vargas Tentori) . . 144-151
Planning for health education in schools (C. E. Turner). 158-164
Principles for developing dental health education programmes (C. J. Sundram) 188-194
The use of health education services in national health programme (C. N. Derek Taylor) . 2-7
Working through the community leaders: an experience in Tonga (J. Fanamanu & T. Vaipulu) 130-137

Professional preparation

An experimental approach to health education in the secondary school: the induction programme for teachers (B. McCloskey) . . . 113-118
Development of health education in Uganda: 1946-1966 (F. J. Bennett) 39-46
Education of public and doctors prerequisite to defeating cancer. 29
France host to pilot health education training programme for doctors. 47, 177
Health education aspects of community development in Nigeria (R. N. Onyemelukwe) . 14-20
Planning for health education in schools (C. E. Turner). 158-164
Preparing tomorrow's health leaders 77
Professional preparation in health education in US schools of public health 169
Social factors influencing health education among the Chimbu (J. Whiteman) 8-13
The specialist in health education: training for the future (G. W. Steuart) 165-169
Training to teach health education (S. King-Hall). 70-77

Professions—their role

A survey in France—Health education: what does the general practitioner think? (L.-P. Aujoulat). 170-177
Health education aspects of community development in Nigeria (R. N. Onyemelukwe) . 14-20
Planning for health education in schools (C. E. Turner). 158-164
Preparing tomorrow's health leaders 77
Principles for developing dental health education programmes (C. J. Sundram) 188-194
The AMA sponsors national health conference 118
